

Nishit Oberoi

San Jose, CA | (408) 457 - 4340 | nishitsachinoberoi@gmail.com | [LinkedIn](#) | [GitHub](#) | [Website](#)

EDUCATION

San Jose State University

B.S. Computer Science (Business Minor) | GPA: 3.8

San Jose, CA

2022 - 2026

- Certifications: [AWS Certified Cloud Practitioner](#)

EXPERIENCE

Jaxel

Backend Software Engineer Intern (Kajun Project)

Pleasanton, CA

July 2025 - January 2026

- Built and shipped **currency-rate-service** (**Spring Boot 3**, **MySQL**, **Flyway**, **Redis**, **JWT**, **OpenAPI**), delivering normalized historical FX endpoints used by **P&L**, **Reports**, and **Timesheets**.
- Led migration to **Spring Boot 3** / **Spring Security 6** across **Auth**, **Access**, and **Country-Calendar** by replacing legacy configs with **SecurityFilterChain** / **authorizeHttpRequests** and refactoring to **constructor injection**.
- Standardized **infra & CI/CD** by **Dockerizing services**, aligning **MySQL/Redis + Flyway** configs, and adding **GitLab CI** pipelines for build/test and container image publishing.

San Jose Consulting Group

Backend Developer

San Jose, CA

January 2025 - May 2025

- Engineered backend services for an AI learning app using **Node.js**, **Express**, and **MongoDB Atlas**, supporting **100+ users**.
- Built REST APIs for real-time **TTS/STT** pipelines (**OpenAI + Deepgram**), reducing audio processing latency by **~40%**.
- Implemented **RAG** (chunking, embeddings, semantic search) using **Pinecone + LangChain** to power flashcards, quizzes, and tutoring.

Malwa Financial & Insurance Agency

Insurance Operations Intern

Fremont, CA

June 2024 - August 2024

- Extracted truck driver records, dispatched **certificates of insurance**, performed data entry for quotes, communicated with **20-25 clients**, and finalized policies.
- Partnered with a finance company to retrieve a **pre-default loan list**, helping reduce cancellations and late fee penalties by **65%**.

Sutter Health

Business Technology Consultant (Fellowship)

San Jose, CA

January 2024 - May 2024

- Proposed a **data-driven solution** to improve Scout app retention by **25-30%** using **predictive engagement** and **user segmentation**.
- Built an **AI-powered chatbot** prototype (**Flask + React**, **OpenAI GPT-4**) to simulate personalized mental health support.

USI Networks

Technical Operations & Logistics Intern

Fremont, CA

December 2023 - January 2024

- Tested **300+ SuperMicro server units**, diagnosing **hardware/BIOS issues** and tracking failures in **Excel** for recurring trend analysis.
- Oversaw **end-to-end supply chain operations** for server systems, managing logistics for clients like **Zscaler**; maintained shipment records in **Excel** and used **Power BI** dashboards to reduce delays by **15%**.

PROJECTS

RetailOps - DevOps Project | Go, Docker Compose, Kubernetes, GitHub Actions, Prometheus/Grafana, Jaeger, PostgreSQL

- Built **RetailOps**, a **Go microservices** project deployed with **Docker Compose** and **Kubernetes**, featuring **GitHub Actions CI**, **Prometheus/Grafana + Jaeger (OpenTelemetry)** observability, **blue/green rollback**, and **k6-driven HPA autoscaling (2→8)** with **Postgres** persistence.

OFS (Organic Food Service) | React, FastAPI, MySQL, Google Maps API

- Built a **full-stack grocery ordering and delivery system** (**React**, **FastAPI**, **MySQL**) with inventory management, **weight-based pricing**, and **route-optimized delivery batching** using **Google Maps API**.

NoteCam | React Native + Expo, OCR, Google Docs API

- Developed a mobile note-capture app (**React Native + Expo**) with **OCR** processing and **Google Docs API** integration to convert images into structured, editable notes.

TECHNICAL SKILLS

Languages & Frameworks: Java, Python, JavaScript, SQL, C, Go, React.js, Node.js, Express.js, Spring / Spring Boot, Flask, GraphQL, LangChain, TensorFlow, PyTorch, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Streamlit

Databases & Cloud Platforms: MySQL, PostgreSQL, MongoDB, Redis, Firebase, Supabase, AWS

Tools, DevOps & Analytics: Git, RESTful APIs, Docker, Kubernetes, Jenkins, Terraform, Ansible, Nginx, Linux, Prometheus, Grafana, Splunk, JWT, Spring Security, Postman, Maven, JUnit, IntelliJ, VS Code, Eclipse, Excel, Power BI, Confluence, Jira
